TVMPA worked over a two year period to promote and get adopted an Idaho State Plumbing Code, which simplifies the codes and tailors them to Idaho needs. We currently are offering these codes for sale at a reduced cost to members.

TVMPA provides critical training to our members and non-members and is currently offering a FREE training on the Idaho State Plumbing Code and the significant changes.

TVMPA has a dedicated fund to assist plumbers to attend classes at the College of Western Idaho.

TVMPA provides a vehicle to network with other plumbing companies, to compare “notes” and a forum to share ideas and problems.

TVMPA is committed to educating others in the building industry on plumbing issues.

TVMPA has recently contracted with staff and now has an office to better serve our members. We are creating a website to better inform our members and the public about the important work we do.

TVMPA is working on other strategic goals to become even more effective in our service to you!

TVMPA is working on continuing education offerings to meet future continuing education requirements.

**TVMPA is the only organization that is dedicated specifically
to the plumbing trade in Idaho.**
